

## **Corona rules remain:**

### **Big school enrollment parties are forbidden!**

Due to the increasing number of corona infections, the state government has decided against further corona loosening. One of the rules is that no large school enrolment celebrations may be celebrated. The corona rules (mouth-nose cover, hand hygiene, distance) must also be observed for celebrations within the private circle. For other family celebrations, such as weddings, birthdays and funerals, no more than 50 people are allowed together. For larger celebrations (up to 50 people), the size of the premises should be considered, and the rules of distance and hygiene should be observed. This means that the larger the room, the higher the number of participants\* (max. 50 people). The number of people is reduced in narrow rooms. The 50-person rule does not apply to the enrolment party.

Outside your own apartment (in public) only groups of ten people are allowed. Likewise, a meeting of people from two households is permitted. It is also recommended that the distance rule be observed during private parties in order to reduce the risk of infection.

All bars and clubs will remain closed until September 15th and contact is still forbidden.
